BATHING COSTUMES. Judio Chollet Says They Do Things B. In France.

oman fashion writer has lately lift-her voice against the institution of show bathing gowns, used half the day as gowns, used half the day as promenade costumes along the beach—garments fitted over a Fronch corset and never worn within reach of the spray of the ocean. It is very rarely that anything is said against this custom, which is odd, considering how exceedingly ill bred, even vulgar, it is.

vulgar, it is.

For a woman to show so plainly her desire to mingle with the public in the stage attire of a burlesque actress is not to raise her in the esteem of well mannered persons. If she goes into the water, short skirts or none are a necessity; if she merely lounges on the beach, they are not, and she has no exquestion in any

ly lounges on the beach, they are not, and she has no excuse for appearing in any except the accepted costume of the age.

The clothing should be appropriate to the occupation, and it is as absurd to use a bathing suit for dry land wear as it would be to go into the water with a parasol and bonnet.

It is only in America that this state of things obtains, for abroad sea bathing is conducted as a business rather than a social function and affords little scope for

social function and affords little scope for

airs and graces. In France the bathing man who takes a woman into the water is her companion only during their immer-sion, and as he is of the servant class there is no question of social amenities. He attends to his business so thoroughly that when the bather emerges she is drip-ping wet to the crown of her head and in ping wet to the crown of her head and in no condition for conversation with her friends. The liberty of American sea bath-ing is much pleasanter, but it ought not to be abused and made the excuse for a display of bad manners and mistaken van-

A great number of Frenchwomen wear A great number of Frenchwomen wear suits cut all in one piece, without a skirt, the trousers being made in so flaring a shape that the inside seam forms almost a straight line. This gives nearly as much fullness as a skirt and is much less clumsy. A sketch is shown of a bathing oostume in two pieces. The blouse and skirt are one garment, reaching almost to skirt are one garment, reaching almost to the knee and belted in at the waist. The trousers are gathered in by an elastic band around, the bottom of the leg, and the short sleeves are similarly secured. A plastron, embroidered with an anchor, fills in the open front of the bodice. This costume is more suitable for near the costume is more suitable for mere bathers than swimmers, as the latter require a union suit, with removable skirt. JUDIO CHOLLET.

THE WOMAN BICYCLIST.

She Now Attracts Little Attention if Be-

The woman bicylist is now so ordinary a feature of both town and country roadways that she attracts little or no attention unless she is dressed in so striking and unusual a garb as in litelf renders her conspicuous. Yet but a very few years ago, when the woman's wheel was first brought out, what a universal outery there was against it as unwomanly and there was against it as unwomanly and immodest! Now it has become an institution, and the exercise is considered no more unferminne than horseback riding.

The general public is utterly unable to argue from analogy or learn from experience, however over to conviction the in-

rience, however open to conviction the individuals composing that public may be. Otherwise we might say that the present agitation and alarm in reard to woman's entrance into politics: :: eas futile and unnecessary as the for rusade against her adoption of the bicycle. When the

new order of things is established, none of the awful consequences so long prognosti-cated will be seen to follow. A woman A woman will still be a woman, will love her hus band and children as much as ever and do her duty by them quite as faithfully. Political power is great, but nature is infinitely greater.

Women 50 years hence will look on us

as we look on the women of Miss Bur-ney's day, who were called and even called themselves 'females' and swooned regu-larly several times a day. The most con-servative among women of the present would have been regarded then as a phe-nomenon of rank radicalism and a fit can didn't for a straighter in the several s didate for a straitjacket, into which attir she would no doubt have been speedily placed in order to keep the country from going to the dogs. It seems to be impossible for the human race to admit the fact

that it is still progressing.

A sketch is given of a bleyele costume of cloth, consisting of a coat, plaited skirt and trousers fastening below the knee A pique vest is worn under the coat, with JUDIO CHOLLET.
